

Black Diamond OneStream STREAM MAP

BDA's 3-step Stream Mapping tool provides for an easy means of conceptualizing how Streams, Models, Inputs and Outputs

VISUALIZE

Visualize business processes within OneStream.

LINKAGE

Dynamically build linkage and dependency of data elements.

INTEGRATED DESIGN

Integrate design components with key executives.

Leverage the power of the single application in **OneStream** and integrate and identify key dependencies in the enterprise design.

STREAM MAP VISUALIZE DATA
